CUSTOMER REVIEW

Just did the SAWtopsy room. Well this is the first time my son and I have ever done an escape room and I have to say this was incredible. Stressful but I didn't expect it to be a walk in the park. **Lots of great puzzles, needed a couple of clues here and there but we escaped with just a few minutes on the clock.** ... It's not scary ie there's nobody jumping out on you. But it is gory in a fun way. Just do the experience and you'll know what I mean.

It's a lovely environment like a diner in reception with plenty to drink and games to buy. All three staff we met were lovely. We absolutely will be back in a few weeks. Ps/ if you need to leave the room you press a green button on the wall even if to use the loo. You're not actually locked in a physical sense with padlock and key :). There's a person watching your every move on the multiple cameras and listening to every word. So if you struggle then ask for a hint!
Will see you soon guys. What an experience.
